

IISJ/PRL/0153/2025-2026

11.12.2025

**CIRCULAR**

Dear Parents,  
Greetings from IIS Jubail!

We wish to inform you that, after thoughtful consideration and extensive discussions, the School Management has decided to implement a full co-educational system across all classes, from KG to Class XII, beginning with the academic year 2026–2027.

This significant decision has been made keeping in mind the evolving educational needs of our students and the logistical challenges currently being faced in the following areas:

- **Transport facilities:** Coordinating separate transport arrangements has become increasingly complex and resource-intensive.
- **Deployment of teachers:** The unified system will allow for more efficient utilization of our highly qualified teaching staff.
- **Laboratory and infrastructure usage:** Integrating facilities will ensure better access for our students.

We believe that a co-educational learning environment will further enhance students' social development, communication skills, and mutual respect, thereby preparing them more effectively for higher education and life beyond school.

This transition is also expected to positively contribute to students' mental well-being and emotional balance.

We seek your continued cooperation, trust, and support as we implement this change for the holistic benefit of our students. Further details and guidelines regarding the transition will be shared with you in due course.

Warm regards,

  
11.12.25  
**Manjusha Chitale**  
Vice Principal
