

“ COLOURS ARE THE SMILE OF NATURE”

Dear Parents,

The motive of celebrating colour days is to make the kids aware of the different colours and develop their confidence. In order to enhance their speaking skill, we kindly request you to send any one object(fruit, vegetable, toy etc.) related to the respective colours on all the colour days. The child should speak 2 / 3 sentences about an object that he/she has brought from home.

Thank you for your usual co- operation.
